

InVict GoldTM cockroach gel

Formulated with a unique bait matrix and 2.15% imidacloprid, InVict Gold achieves outstanding palatability, value and lightning fast results

Product Codes:

IGCG435: Box of four 35 g syringes

IGCG135: Individually boxed 35 g syringe

IGCG300: Single 300 g "Big Gun" syringe
(fits standard caulk gun)

Lightning Fast Cockroach Control
Roaches begin dying in as little as 20 minutes after eating the bait.

Proven Secondary Kill

When roaches are exposed to carasses and droppings of roaches that ate the bait.

Thick Syrup Formula

Odorless formula stays where it is applied, will not run on flat surfaces.

The Ideal Choice for Bait Rotation to Prevent Bait Aversion

The unique food grade attractants are intentionally different from other popular baits.

The Perfect Bait for Sensitive Accounts such as Food Plants, Schools, Child Care and Health Care

Formulated without the eight most common food allergens.

Available in Fully Labelled Boxes of 35 g Syringes with Plunger and a 300g "Big Gun" Tube that Fits in a Standard Caulking Gun

17% More Bait Per Box when Compared to Four 30g Tubes Per Box

For Indoor and Outdoor Use
