PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS CALITION

Keen gel away from foods and food contact surfaces Harmful if absorbed through skin Causes moderate eve irritation Avoid contact with skin eyes and clothing Wash thoroughly with soan and water after handling

PHYSICAL AND CHEMICAL HAZARDS Do not use this product in or on electrical equipment where a nossibility of shock hazard exists

DIRECTIONS FOR USE It is a violation of Federal I aw to use this product in a

manner inconsistent with its labeling.

MAXEORCE[®] FC Select Professional Insect Control[®] Boach Killer Bait Gel may be used as a spot or crack and crevice treatment for the indoor and outdoor (adjacent to homes & structures) control of cockroaches in residential areas and the non-food/non-feed areas of institutional warehousing and commercial establishments including warehouses restaurants food processing plants supermarkets hospitals nursing homes motels hotels anartment huildings bakeries beverage plants breweries bottling facilities candy plants canneries cereal processing and manufacturing plants, dairies and dairy product processing plants frozen food plants schools laboratories computer facilities sewers "aircraft" huses hoats/shins trains homes houses industrial buildings office buildings kennels kitchens manufacturing facilities spice plants stores, wineries, mausoleums, meat processing and packaging plants, meat and vegetable canneries, pet shops and zoos Non-food/non-feed areas include bedrooms living rooms bathrooms closets media rooms garbage rooms lavatories entries vestibules offices locker rooms machine rooms, boiler rooms, garages, mop closets, and storage (after canning or bottling). This product may also be used in food/feed areas of food/feed handling establishments as outlined below.

USE RESTRICTIONS

Do not treat food preparation surfaces. Do not apply bait get to areas which have been recently spraved with insecticide. and do not spray insecticide over gel as it may cause the bait to become repellent.

USE ONLY IN AREAS NOT EASILY ACCESSIBLE TO CHILDREN AND PETS. In zoos, apply only in areas inaccessible to zoo animals

APPLICATION DIRECTIONS

For roach gel: Application rate is dependent on level of infestation and species to be controlled see application rate table. Apply bait as a spot or as a bead in cracks and crevices. The lower application rate should be used for low to moderate infestations or re-treatments, and the higher rate for more severe infestations or where the population occurs in inaccessible areas. Gel placements should be at or near harborages or aggregation areas, such as corners, or cracks and crevices. Numerous smaller placements will provide faster control than fewer larger spots, especially for German cockroach control.

Place bait under baseboards, sinks, countertops, seats,

around water pipes water heaters dishwasher equipment in crack and crevices as well as voids where insects harbor For outdoor use (adjacent to home -or- structure). Place hait in areas adjacent to structures where reaches may nest or breed Apply bait to notential points of insect entry such as eaves sills and expansion joints

Apply bait in protected areas whenever possible Environmental stresses such as direct sunlight and water will reduce the residual effectiveness. Priority treatment areas may be identified by visual inspection of such areas listed above or aided by transing techniques or spot flushing cockroaches hide During follow-up visits inspect bait Refillable stations: This product may be used in the Maxforce Refillable Bait Station or B&G Perimeter Patrol Station Befillable stations should be placed every 20 to 30 feet around the perimeter of a structure. Use approximately 2 stations per side of a typical single family home. The quantity of Maxforce FC Select Professional Insect Control Roach Killer Bait Gel hait added to the hait station will vary depending on the severity of infestations, see the application rate table. Do not exceed 2 - 4 spots per station (3" - 6" head)

For hest results, place stations near: air conditioning units water faucets, foundation vents and weep holes, decks, utility entryways (e.g. electrical cable TV) and wherever cockroaches are frequently found

Regularly inspect all stations and replace hait as needed for continual control

Position Refillable Bait Stations adjacent to structure in areas where they will not be damaged by lawn equipment such as mowers and trimmers. When placing the station in turf remove sod laver and place station base plate against the soil

Applicator should not exceed one teaspoon of gel in refillable hait stations

INDOOR LISE:

Applications in Food/Feed Handling Establishments: Application within food/feed areas of food/feed handling establishments is limited to crack and crevice treatment only. If gel contacts an exposed surface where food is handled, remove gel, and wash exposed surface with an effective cleaning compound followed by a potable water rinse prior to use. Apply with Maxforce Bait Injector directly into cracks and crevices. Place applicator tip 1/2 inch into cracks, crevices, holes and other small openings where roaches may be a problem. Apply small amounts of gel per spot. Do not apply bait to areas where food/feed, utensils, or processing surfaces may become contaminated. Do not apply bait to areas that are routinely washed such as cracks and crevices in tops of tables, food/feed preparation, and prepared food holding surfaces as bait may be removed by washing. Do not apply bait to surfaces where the temperature exceeds 130°F as bait may run. Examples include, but are not limited to. portions of stoves, ovens, grills, fume hoods, heat lamps, coffee urns, steam tables, toasters, fryers, dishwashers, and hot water pipes. Care should be taken to avoid depositing gel onto exposed surfaces. If gel contacts an exposed surface, remove gel and wash exposed surface. Food/feed areas include areas for receiving, storage, packing (canning,

bottling wrapping boxing) preparing edible waste storage and enclosed processing systems (mills, dairies, edible oils, syrups) Serving areas are also considered a food/feed area when food is exposed and facility is in operation. Apply bait in small amounts between different elements of construction between equipment and floors openings leading into voids and hollow spaces in floors walls ceilings equipment legs and bases around plumbing pipes doors and windows behind and under refrigerators cabinets sinks closets stoves and other equipment where placements and reapply when necessary

Application of this product in food/feed areas of food/feed handling establishments other than as a crack and crevice treatment is not nermitted.

Break-tin Reservoir: Prior to use break the snin-tin closed end of the gel reservoir at the scored line. After use, the receivoir may be recealed with the enclosed black outlet can The black outlet can is reusable

Directions for changing reservoirs: With the arrow on the drive rod pointing up pull the drive rod out as far as it will an Remove the empty reservoir Do not reuse empty reservoirs place in trash Reservoirs that still contain gel can be sealed with the end can and outlet can for future use To attach a new reservoir follow the above directions

SPECIES/LEVEL	APPLICATION RATE
OF INFESTATION	(PER SQ YD)
MODERATE INFESTATIONS	1-2 SPOTS (DIME
OR RE-TREATS FOR GERMAN	SIZED) OR
OR BROWN-BANDED ROACHES:	1 1/2" – 3" BEAD
SEVERE OR HEAVY INFESTATIONS	2-4 SPOTS
FOR GERMAN OR	(QUARTER SIZED)
BROWN-BANDED ROACHES	OR 3" - 6" BEAD
LARGE ROACHES SUCH AS	RECOMMENDED
AMERICAN,	SPOT SIZE
SMOKEY-BROWN OR ORIENTAL	1/3" – 1/2"

Do not treat food preparation surfaces. Do not apply bait gel to areas which have been recently spraved with insecticide. and do not spray insecticide over gel as it may cause the hait to become repellent

Gel placements should be at or near harborages or aggregation areas, such as corners, or cracks and crevices. Numerous smaller placements will provide faster control than fewer larger spots, especially for German cockroach control

For outdoor use (adjacent to home -or- structure): Place in cracks or crevices adjacent to structures where large roachest may rest or breed. Apply bait to potential points of insect entry, such as eaves, sills, and expansion joints. Apply bait in protected areas whenever possible. Environmental stresses such as direct sunlight and water will reduce the residual effectiveness

+ American, Oriental, Brown, Smokey Brown

Do not exceed 1 tsp. per station.

If the station is not equipped with a sticker to identify the contents, apply a sticker to the inside of the station.

Directions for loading reservoirs and operation:

 With the teeth of the drive rod facing up, pull the drive rod all the way back. If the drive rod is initially hard to move, simply un-screw (turn counter-clockwise) the black portion of the applicator that holds the gel reservoir until the drive rod moves easily.

2. Attach a pre-filled reservoir of gel with a twist-locking motion. Remove the outlet cap and attach a dispensing tip. Break-tip Reservoir: Prior to use, break the snip-tip closed end of the gel reservoir at the scored line. After use, the reservoir may be resealed with the enclosed black outlet cap. The black outlet cap is reusable.

3. Turn the knob of the drive rod so that the teeth are facing down and move it slightly forward so that the trigger mechanism will engage. Squeeze the trigger until the drive plunger seats against the piston in the gel reservoir. Gently squeeze the trigger until the gel flows out.

4. If gel continues to flow after the trigger is released, simply un-screw the portion of the bait applicator that holds the reservoir to a point where gel does not continue to flow after the trigger is released.

Pest population reduction will be apparent with 2 -or- 3 days for German roaches and 8 days for American roaches.

Most important locations:

Behind appliances, along baseboards, under appliances, and under sink.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal. **STORAGE:** Store in a cool, dry area out of reach of children. **CONTAINEE HANDLING:** If Empty: Do not reuse container, Place in trash or offer for recycling if available. If Partly Filled: Call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain. If you have questions regarding the use of this product, please call 1-800-331-2867.

IMPORTANT: READ BEFORE USE

Read the entire Directions for Use, Conditions, Disclaimer of Warranties and Limitations of Liability before using this product. If terms are not acceptable, return the unopened product container at once.

By using this product, user or buyer accepts the following Conditions, Disclaimer of Warranties and Limitations of Liability.
