

USE IT TO

KILL ANTS & COCKROACHES

AND CREATE A SUSTAINABLE TREATMENT PROGRAM.

Ants, cockroaches, crickets, silverfish, slugs and snails all consume Niban bait. Non-target species, such as birds, mammals, amphibians and reptiles, don't.

The active ingredient in Niban disrupts the metabolic process in the target pests' guts, giving you the control you need. This metabolic disruption is specific to insects and gastropods. On top of that, Niban has no known resistance to target pests.

Niban helps create a sustainable treatment program - and *that* helps you build a sustainable business.

Remember, always read, understand and comply with the label. Niban and Nisus Corporation are registered trademarks of Nisus Corporation. ©2017 Nisus Corporation #NI-FLY-0117

APPLICATION:

Scatter granular bait around perimeter of structures and near heavy infestations or entry points. Inside, use Niban in wall voids and under cabinets & appliances.

TARGET PESTS:

ANTS

COCKROACHES

CRICKETS

SILVERFISH

CREATING A WORLD
OF SUSTAINABILITY.
